

Cortizo Cladding Pro

Modular Aluminium Cladding

The Cortizo Cladding Pro system is a versatile aluminium cladding solution designed to transform exterior facades with a sleek, contemporary finish. Its modular design and precisely engineered profiles create a clean, minimalist aesthetic that complements both residential and commercial architecture.

An innovative clipped profile system, paired with straight caps it delivers a sharp, modern appearance while also enabling fast, efficient installation.

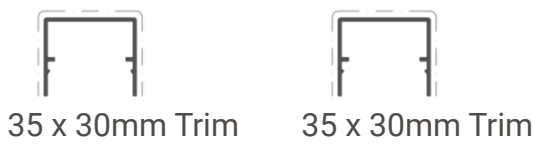

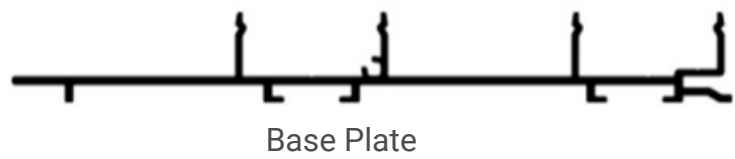

The result is a façade solution that combines striking design with practical performance.

In addition to lacquered or anodised finishes, this range of profiles is also available in a wide selection of foil coatings
